THE OVAL PIANO-FORTE,—
(With the over-strung base)
The most graceful in form, and the best-toned horizontal Piano
in the world.

The DRIGGS PIANO COMPANY, by greatly extending their
facilities of manufacture, and improvement in their mechinery,
are prepared to receive advance orders for these graceful and
elegant instruments. The demand has heretolore been far beyond our ability to supply, and for most of the time during the
last year we have not had an instrument of this peculiar style to
sublist. This is the original shape of the Origas Patent, or
Violin Piano, and it glosely approximates, not only in the principles of its construction, but in its shape, to the violin—"the
most perfect, became the most responsive instrument in the
world." The case is a vibratory shall, free from all strain of the
strings, and the oval thape retains more perfectly the vibratory
direles, sustaining the tones with wonderful purity, and making
the instrument wore responsive and perfect. Wesercome, No.
542 Broadway, between Spring and Primee-sts.
